***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Newly cited is Ewen et al. (US 4,767,735), which discloses a polymerization catalyst feed system which is identical to that of Shamshoum al. (US 6,239,058, of record). Ewen recommends the system for use with Ziegler-Natta catalysts, while Shamshoum recommends the system for use with metallocenes; however, neither reference discloses the claimed removal/replacement steps during the polymerization process.
